

At Thompson Community Services we offer highly individualized, solution-focused services for individuals, families and funders.

We know that over time, each individual's needs change and evolve and so offer the planning and choices required to adapt to those changes.

We believe that choices and flexibility are important for all of us - and providing those options are part of providing care with dignity and respect.

COMMUNITY INCLUSION PROGRAMS

Thompson Community Services (TCS) offers community inclusion services to help individuals with developmental disabilities lead meaningful lives and contribute to the community. Day services most commonly include support for volunteerism, life skills and employment readiness.

At TCS, our caring staff believe every individual is entitled to feel like a productive and contributing member of society. We work hard to support success and so we offer a range of activities designed to meet an individual's needs, skills and interests.

Our goal is to encourage and support individuals while they develop skills to help them achieve greater independence. We know that sometimes health, behavioural or social challenges make it hard to meet commitments and so provide the flexibility needed for continued success.

Our day services help develop independence in the community and include:

- Shopping
- Banking
- Transportation
- Group learning, recreation and social activities

We also provide support for volunteer and employment skill development, including:

- Work preparation
- Work skills
- Recreation and leisure activities
- Social relationships
- Volunteer employment

TCS provides all of the above services on either a group or individual basis.
